Data quality notes

- Flagged, not dropped: Emp Id 123680 (attrition, no relieving date); 192455 and 174038 (relieving before joining).
- Excluded only from tenure analysis; they remain in all counts and rates.
- Not used: Date of Birth (167/171 values in 2021–23) and Stability (join-date band, not true tenure).
- "Category" shown as Gender; Emp Id treated as text.
- Cohorts from 2023 are right-censored. Groups with n<10 are flagged ⚠.
- Attrition rate = leavers ÷ all employees (incl. transfers) = 47/171.
- Avg tenure of leavers uses the 44 leavers with valid dates (mean 20 mo, median 15 mo).

What leadership should do

■ **Accounting is the hotspot**

9 of 18 left (50%), 1.8× company rate. Action: stay interviews, pay-band and workload review. Owner: Finance Head + HRBP.

■ **Contract churn 43% vs 25% permanent**

10 of 23 contractors left. Action: conversion pathway for top contractors; review renewal practice. Owner: CHRO + TA.

■ **Earlier cohorts are leaking**

42% of 2020–22 joiners left (2020: 47%, 2021: 48%). Action: career-path and re-skilling for 4–5 year staff. Owner: CHRO + L&D.

■ **Manager effect**

Janelle Wiley 37% (15/41), Alejandra Mack 37% vs Ryan Simmons 19% (11/58). Action: manager-effectiveness review. Owner: CHRO.

■ **Exits peaked in 2023 (18)**

Median leaver goes within ~15 months. Action: stronger onboarding, 90-day and 12-month check-ins. Owner: HR Ops.

■ **Sales is the benchmark (9%)**

2 of 23 left; Legal 15%. Document what they do differently. Owner: CHRO.

■ **HR and Operations = 55% of exits**

26 of 47 leavers. Prioritise by volume as well as rate. Owner: COO + CHRO.

■ **Gender / marital gaps are modest**

F 30% vs M 26%; married 32% vs single 25%. Small samples, not conclusive: monitor only.
